Never Find An End To Your Love

V1

E B A B
Perfectly perfect, could only be you
E B A B
Bounty of heaven, love absolute
E B A B
Made in your likeness, you know me completely
E B A B
Before all creation, you already knew me

Pre Chorus

C#m A
I could never imagine a day without you,
C#m A
My world would become incomplete
C#m A
I preciously treasure each moment with you,
B
And you'll never, no you'll never ever let me go, (no,no,no)

Chorus

E B
If I soar in the heavens or plumb the depths of the sea
A B
Or sail to islands that no eye has seen
E B
If I conquer the mountains or the boundaries of space
A B E
I know, I'll never find an end to your love

V2

Just like the mountains that rise from the sea
Were made by your fingers you sculpted me
Every star hung in heaven that never falls
Is safe within your hands where my life is secure
